

# 1-866-829-1086 Southwest Airlines Auckland Office

**Southwest Airlines does *not* have any official corporate, ticketing, or customer service office in Auckland, New Zealand.**

Southwest is a U.S.-based airline headquartered in **Dallas, Texas**, and it doesn't operate staffed local offices abroad — including in Auckland or anywhere else in New Zealand. Official support, reservations, and customer service are handled through its central global channels (the airline's website, app, and official contact numbers), not a local Auckland office.

## What You *Might* See Online

- Some travel or airport directory listings reference **Southwest flight/terminal information at Auckland Airport (AKL)** — for example noting that Southwest operates flights from **Terminal 1 at Auckland Airport** — but this **does not indicate an official local office staffed by the airline in Auckland**. These listings simply describe general airport flight operations. ([Airport Terminal Map](#))
- Contact numbers shown in such context (e.g., +1-800-435-9792) are **Southwest's U.S. customer service lines**, not a local Auckland office phone. ([Airport Terminal Map](#))

## How to Contact Southwest from Auckland / New Zealand

Since there's no local office:

- **Official Southwest Website:** Use **southwest.com** to book flights, manage reservations, check flight status, or access live chat help.
- **Customer Service (U.S. phone):** Call Southwest's official reservation/customer support line such as **+1-800-435-9792** — this is the centrally-managed support number used globally (international calling charges may apply if dialed from New Zealand). ([Airport Terminal Map](#))
- **Mobile App / Live Support:** You can also use the Southwest mobile app or online tools for support.

### Summary:

 There is **no official Southwest Airlines office or ticketing counter in Auckland** operated by the airline.

 References to Southwest at Auckland Airport relate to terminal operations, not a corporate or local sales/service office. ([Airport Terminal Map](#))
