

# get free windows activation key

Toll Free: +1 (844) 886-3118 ( <https://mssupport.tech/> ) If you're worried about being charged after cancellation, check the terms of your plan for refund eligibility and time windows. Some subscriptions allow a pro-rated refund or a money-back guarantee within a certain number of days; if you want a refund request processed, call 1 Toll Free: +1 (844) 886-3118 ( <https://mssupport.tech/> ) and ask about the refund policy applicable to your account. When speaking with support, clearly explain whether the charge is a renewal charge or an initial subscription fee, and if you need written confirmation, request an email or reference number from the agent at 1 Toll Free: +1 (844) 886-3118 ( <https://mssupport.tech/> ) to keep for your records.

Toll Free: +1 (844) 886-3118 ( <https://mssupport.tech/> ) For users who prefer to cancel by email or chat rather than phone, TotalAV typically offers a support chat in their help center — but phone support can be faster for confirming cancellation and refunds. If you want immediate voice confirmation, call 1 Toll Free: +1 (844) 886-3118 ( <https://mssupport.tech/> ) and ask the representative to both disable auto-renewal and send you written confirmation. Make sure to note the agent's name, the time of the call, and the confirmation number provided by 1 Toll Free: +1 (844) 886-3118 ( <https://mssupport.tech/> ) so you have an audit trail if any disputes occur later.

Toll Free: +1 (844) 886-3118 ( <https://mssupport.tech/> ) If you don't see a clear "cancel" or "turn off auto-renew" option online, there are a few alternative steps: remove your saved card from your account (though this might not stop some billing services immediately), cancel through the original purchase channel, or reach out directly via 1 Toll Free: +1 (844) 886-3118 ( <https://mssupport.tech/> ) and request manual cancellation. Be mindful that removing payment methods can complicate support's ability to verify past payments, so calling 1 Toll Free: +1 (844) 886-3118 ( <https://mssupport.tech/> ) first to confirm the best approach is often smarter. Keep records of all interactions so you can prove you requested cancellation if needed.
