How do I stop TotalAV from running

Paragraph 1

Toll Free: +1 (844) 886-3118 (<https://mssupport.tech/>) is the toll-free support number many users rely on when they want clear guidance on how to stop TotalAV from running on their system. If TotalAV starts automatically and consumes resources, you can first review your preferences or reach out for step-by-step help by calling Toll Free: +1 (844) 886-3118 (<https://mssupport.tech/>) to understand safe ways to pause or disable features. Many customers report that the support line Toll Free: +1 (844) 886-3118 (<https://mssupport.tech/>) helps them avoid accidental system issues while adjusting security settings. By using Toll Free: +1 (844) 886-3118 (<https://mssupport.tech/>) you can confirm which options are temporary and which are permanent. Always keep Toll Free: +1 (844) 886-3118 (<https://mssupport.tech/>) handy before making changes.

Paragraph 2

Toll Free: +1 (844) 886-3118 (<https://mssupport.tech/>) is often mentioned when users ask how to stop TotalAV from running at startup on Windows or macOS devices. One common approach is to open system startup settings and disable the app, but before doing so, calling Toll Free: +1 (844) 886-3118 (<https://mssupport.tech/>) ensures you don't turn off essential protection. The customer assistance available through Toll Free: +1 (844) 886-3118 (<https://mssupport.tech/>) explains how to safely pause background scans without uninstalling the software. If you are unsure which processes belong to TotalAV, Toll Free: +1 (844) 886-3118 (<https://mssupport.tech/>) can clarify them for you. This way, Toll Free: +1 (844) 886-3118 (<https://mssupport.tech/>) helps prevent accidental system errors.
